

Plumbing & Heating Centre

THE BATHROOM COLLECTION
October 2024

COMPANY POLICY

We, along with our suppliers, pursue a policy of continual improvement in the design and performance of our products. Every effort has been made to ensure the accuracy of all information in this publication.

The measurements within this brochure are provided by the manufacturer and plus/minus tolerances are to be expected.

The right is reserved to amend details and vary specifications without notice. Please note that prices are in sterling, include VAT at 20% and are subject to change without notice.

Colour reproduction is as accurate as possible within the limitations of the printing process.

INSTALLATION

A key element in the performance of a bathroom is the quality of the installation. We recommend you use a plumber from a registered association and consult them right from the start.

You should also ensure that all required products are on site and in perfect condition prior to arranging with the plumber to commence installation.

For any electrical items, you are advised to use a qualified engineer.

TECHNICAL SPECIFICATIONS & GUARANTEES

For full technical specifications and guarantees on any product in this catalogue, we suggest you refer to relevant manufacturer's literature or website.

Due to space constraints we are unable to detail all this information within the catalogue.

Guarantees do not cover moving parts that perish due to wear and tear. In the event of a defective product claim, the liability is limited to the product supplied and does not extend to consequential loss or damage arising from the defective product.

RETAIL PRICES

The prices in this book were correct at the time of going to press. However, currency fluctuations, increases in the cost of raw materials and ever-rising fuel prices all contribute to manufacturing costs, over which we have no control. Therefore, prices in this book are subject to change without notice and you should always consult with your retailer for any changes.

WARNING

Some items in our price book require 4 person lift. Please discuss this with your retailer before delivery.

nanogLAZE
ceramic that stays cleaner

All Burlington WCs have NanoGlaze in the bowl. NanoGlaze is a coating that reduces microscopic pores in the ceramic surface, making it smoother. As a result, less waste "sticks" to the surface making cleaning far easier.

For toilet seats, see page 15

High Level WCs

The high level cistern "chain" is a rigid chrome pull that allows you to push up for the 3 litre water saver, or pull down for a full 6 litre flush. Now you can have a high level cistern and still save water! The rigid rod pull comes as part of the flush kit. C/G/B

	Gold WC Pan Fixings (with gold cover caps)	110.SP387	£15

High Level WCs

The high level cistern "chain" is a rigid chrome pull that allows you to push up for the 3 litre water saver, or pull down for a full 6 litre flush. Now you can have a high level cistern and still save water! The rigid rod pull comes as part of the flush kit. C/G/B

Traditional

Traditional, with a unique difference

Bespoke By Burlington

Bespoke by Burlington is a unique collection of hand-decorated and coloured ceramics. Offering a new level of customisation in bathroom design.

Made to order by skilled craft workers in Staffordshire, England, using the finest materials, the collection is presented on a selection of Burlington's best-selling Edwardian basins and WCs. Bespoke by Burlington brings a new choice to traditional bathrooms, moving further away from the well-worn minimalist look. The collection places the brand at the forefront of modern-day bathroom design, whilst remaining true to its historic traditional influences and style.

Lettering

Bespoke Lettering offers the ultimate opportunity for personalisation; choose between three lettering styles for a truly unique bathroom.

Colours

Inspired by bold shades and vintage colour palettes, Confetti Pink, Alaska Blue, Moon Grey, Jet and Medici introduce a contemporary twist to traditional ceramics.

Floral

Presented across four diverse hand-illustrated designs, the Floral range of decorated pieces expresses various ways of incorporating nature into the traditional bathroom.

Be Inspired

Looking for inspiration? Explore the Bespoke collection by Burlington. Available to order from Claygate

Riviera

C/G/B

The Riviera Collection harks back to the sophisticated elegance of the 1920s, a decade in France known as 'les années folles' (the crazy years). This was a time of great prosperity after the hardship of World War I, when social, artistic and cultural dynamism led the way to a new, relaxed and affluent way of living. Continental travel, fashion and new designs moved forward at a breathtaking pace bringing a new level of modernity into peoples' homes. Nowhere was this more apparent than in the villas and hotels along the French and Italian Riviera's, whose lavish decor and decadent fittings were an intrinsic element of the stunning new architecture. The Riviera Collection by Burlington moves the traditional bathroom into this era of modernity, mixing form and function with elegance and glitz.

Burlington®

Taking inspiration from this period of prosperity, renowned designer Christian Booth, has created The Riviera Collection by Burlington, offering a streamlined bathroom design, at home in either a traditional or contemporary setting, where form is celebrated and function preserved. Gone are the sharp edges and imposing, masculine up-stands of earlier bathroom designs, and in their place, are the cleaner, more balanced lines that herald the new modern era, mirroring elements of traditional styling, but truly reminiscent of the glorious bathrooms fitted in the famous architectural residences of the 'roaring twenties'

Ona Collection - Gloss white

Z/B/D

Versatility is key with the Ona Collection. Slim basins feature a more subtle yet durable design with taps that are quite something: a cylindrical and slender body and a flat rectangular handle, in perfect harmony with the shape of the spout, see page 446. In addition, the hidden fixations of the WC allow for a clean and minimal look at any moment. Details that change everything inside your bathroom: Rimless toilets are free of angles or nooks to ensure more accessible and efficient cleaning. Roca's touchless technology, employed in flushing, taps and soap dispensers, function without direct contact for extra peace of mind.

Z/B/D

Based on architectural forms and modular shapes, the Tura range of WC's and washbasins are unexpectedly bold and modern. The square and rectilinear lines are met by soft edges and subtle curves. The washbasins include an innovative, sophisticated and elegant hidden linear drain, blending into the ceramic basin, leaving the surface bare. Available in standard white with matt finish or super glaze available by special order.

Innovative (Band A)

Meridian In-Tank – 25 year warranty on ceramics

B/D

In-Tank has revolutionised the bathroom. For the very first time the cistern and flush systems are integrated into the WC itself. With the installation of either a cistern or flush plate no longer required, this innovation marks the start of a new era in bathrooms.

There are two types of frame on the wall-hung option – L and I support. How do you know which is required for a particular installation? Firstly you need to find out if the wall you are installing the pan on is a solid or stud partition wall. You will need the product and frame before you start tiling the walls and floor as the frame comes in the box with the product and will need to be embedded into the wall and/or floor.

- For solid walls, such as brick walls, the I support frame is recommended.
 - For stud walls, such as plasterboard walls, the L support frame is recommended.
- The pre-installation information details the space required for each support frame.

How does it work

1. Choose the desired flush (4.5 or 3 litres) and press the button.

2. The air pump, with its Soft Air® technology, is activated and emits a pre-programmed flow of compressed air, pushing the water from the internal tank.

3. The water rises up to provide a flush, expelling the selected volume of water from the internal tank.

4. The internal tank refills until it reaches the optimum water level.

Innovative (Band A)

The Gap D-Trit with integrated waste macerator

B/D

designed for easy installation and easy access with up to 3 additional inlets for other bathroom connections. It's the perfect solution where a single WC, cloakroom, en-suite or bathroom project is not located near a soil stack.

The Gap D-Trit is perfect for:

- Cloakrooms ■ En-suites ■ Loft conversions
- Garden offices ■ Basement conversions

Features include:

- Round close-coupled WC pan with floor fixing kit
- Dual flush cistern: 4.5/3 litres with side water inlet
- Supralit® soft-close seat and cover
- D-Trit macerator with stainless steel cutting blade
- 2 easy access side panels to conceal pipework connections

with a wide selection of products, ranging from sanitaryware, furniture, baths and showers, along with finishing touches from The Tunbridge Wells Brassware Co by Artesan (See pages 416 - 431). Enabling you to create an amazing personal space that feels and looks the way you want it to

Achievable luxury

The ceramics in any bathroom are an essential element and need to be practical to suit your space and visually pleasing to suit your style and preferences.

You can be assured that the Artesan bathroom collection will have something to satisfy everyone's needs.

Contemporary toilets typically come with rimless technology as standard and a selection of complementary thin rimmed basins.

The traditional range combines modern-day practical functionality with elegance and timeless charm.

All with WRAS approved fittings and lifetime ceramic guarantee. Create an inviting and relaxing bathroom, with reassured quality, at an incredible price.

Annabel square close coupled WC with slim soft close seat

Feature guide

Rimless technology offers a smooth interior pan, resisting the germ build-up, staying cleaner for longer, more hygienic and fresher.

Water saving toilets designed to use less water, typically 4.5 or 3 litres, but still delivering an efficient and successful flush.

Space saving toilets which take up less space than a conventional WC, offering more flexibility in a restricted area.

Comfort height toilet pans that are higher than a regular pan, offering ease and comfort when getting on and off.

Tornado flush The tornado flush offers not only enhanced toilet cleaning efficiency but also a quieter operation and reduced water usage.

Tornado - Rimless WCs with tornado flush **NEW** B/C

The tornado flush offers not only enhanced toilet cleaning efficiency but also a quieter operation and reduced water usage compared to traditional flush systems. Its powerful flush covers every part of the toilet bowl, generating a strong whirlpool effect that harnesses the water's force for a thorough cleansing process. Tornado flush achieves this by forcing water from two or three jets into the toilet bowl, creating an intense whirlpool action that leaves no spot untouched. The circular motion of this innovative flush design is spray-free, effectively preventing the spread of germs and bacteria within the bathroom, and safeguarding against contamination of the toilet seat.

Amesbury

B/C

Comfortingly traditional with modern-day luxuries. Inspired by the bathroom designs of the early 20th century, reflecting the styles from Edwardian period and sharing visual characteristics from the Art Deco era. Linear basins with straight edges, deep upstands and geometric pedestals, toilets which combine classic shapes and functionality with genuine features found in the stylish homes from this period. Amesbury's choice of freestanding furniture adds iconic British elegance and practical storage solutions for any bathroom, available in 3 fashionable paint finishes and matching toilet seats - see pages 164 - 165. To continue the authentic elements from the Edwardian period, The Tunbridge Wells Brassware Co by Artesan, offers a selection of brassware, showers and towel rails, for those timeless finishing touches - see Brassware pages 416 - 418.

V-Care Shower Toilet

Z/B

VitrA shower toilets symbolize the ultimate integration of design and technology within the bathroom environment and deliver the ultimate personal hygiene experience. Using water to clean yourself after using the toilet is becoming more popular as people understand the experience that feeling of complete freshness and cleanliness.

The V-Care is the new generation of shower toilet from Vitra. It combines the functionality of a toilet with the personal cleaning properties of a bidet, creating a stylish WC that will seamlessly integrate into your bathroom. All the main functions are variable to create a totally personalised washing experience. The intensity of the water jet is adjustable as is the water temperature for both the front and rear washing options. The ergonomically designed heated seat offers an additional level of comfort and the automatically activated air purifier eliminates those unwanted bathroom odours.

VitrA

Aquacare

Z/B

Toilets with an integrated bidet function provide gentle and thorough personal water based cleaning whilst also reducing toilet paper usage. Aquacare is part of the M-Line and Integra collections and comes with a choice of either an integrated thermostatic stop valve or a non-thermostatic wall-mounted stop valve. Vitra Aquacare, with the uniquely designed, integrated air-breaker protects the household supply of drinking water from contamination, in accordance with the DIN EN1717 regulations, as well as the protection of a DVGW approval. Sold as a complete set, installing an Aquacare toilet is fast and simple. The integrated air-breaker requires no electrical connection and works purely from hydraulic action within the air-breaker. Five patents have been granted for the Vitra Aquacare technology.

- Rim-ex ■ Thermostatic and non-thermostatic options ■ Integrated (within the WC) and wall mounted stop valve options with M Line ■ Soft close seat

Comite White Soft Close Seat **NEW**

Greener, stronger and cleaner, made from a patented cutting-edge material called Comite which is derived from sustainable paper pulp.
 ■ Smooth ceramic like feel
 ■ Fully adjustable, top fix fittings
 ■ Push button quick release hinges, for easy cleaning
 01.SCS **£42**

Touchless Flush Valve **NEW**

The NEW touchless flush valve can be easily retrofitted to upgrade an existing push button to an automatic flush system. Simply wave your hand to use. The valve automatically detects the required flush volume, whether full or half flush. Flushes can be adjusted easily to 6/4, 4.5/3 or 4/2 per dual flush settings. The touchless flush valve fits most toilet cisterns with a 38mm cistern hole and an external cistern height (including the lid) of 360-390mm. Additionally, the mechanism is battery-operated, eliminating the need for a power connection. Four alkaline batteries ensure more than 40,000 automatic flushes, minimizing the frequency of battery changes. WRAS approved - Waterproof level IPX 6

134.TLFV **£99**

Ona Collection - Soft close doors and drawers.
Matt white, matt sand grey and matt green Z/B/D

The Mediterranean way of life stands for simplicity, care and connection. So does the Ona Collection, respecting natural materials, it radiates this sentiment to each home and context anew, propagating connection and making the essence of the Mediterranean palpable. The simplicity of the design plays a central role, perfectly evoking the organic authenticity of sea-facing culture.

Tall cabinet with open shelf available by special order (S) **£935**

For Ona WCs, see pages 24 - 26

Ona

The Ona Collection design perfectly combines sophisticated proportions and archetypal shapes without losing a balancing human touch. Crafted with the future in mind, Ona embodies a philosophy of simplicity without neglecting the details that matter

Tura - Off-white, light noble grey and light terracotta **NEW**

Z/B

The great Spanish architects shared an understanding about the importance of light and shadow and how shutters can be designed so to embrace the sun whilst also protecting us from it. This philosophy echoes throughout Mediterranean design, where light is gently diffused, reminiscent of a playful game of hide and seek, as evidenced in Tura's creations. The essence of the collection lies in its open spaces, clean lines, geometric patterns, and understated earthy textures, evoking a sense of tranquillity and warmth. The washbasins include an innovative, sophisticated and elegant hidden linear drain, blending into the ceramic basin, leaving the surface bare.

Unit, white basin in gloss or matt and accessories sold separately, height measurement below includes basin.

Aleyda – Matt white, matt black, pebble grey (beige wood and white wood available by special order £) Z/B/D

Elevate your bathroom with the latest furniture collection from Roca. Designed for modern-day living, Aleyda is a contemporary range of vanities featuring an integrated handle for a sleek finish. Each piece in the Aleyda collection is wrapped with PVC foil for an added layer of waterproofing. Finishes include timeless options such as Pebble Grey and Matt White, as well as the softer spa-like finishes Beige Wood and White Wood available by special order. For an ultra-modern and on-trend look, Matt Black is the go to choice. Behind the stylish fronts you'll find drawer organisers to maximise storage and keep bathroom essentials close to hand. All configurations pair perfectly with Roca's brassware to complete the stylish look. Matching column units are also available as part of the extra range from Roca.

Tenet – Gloss white, gloss grey and walnut (city oak and nordic ash, available by special order £) Z/B/D

Why sacrifice style for an affordable price tag? With the Tenet collection by Roca, you can have both. Compatible with pieces from Roca's other ranges and designed to suit bathrooms of all sizes and styles, the collection of handleless vanity units is both simple in style and flexible in use. And the beauty of the handleless design is that you can choose any finish for your brassware without the worry that it doesn't match the handles on your vanity unit.

Carmen - Matt white or matt dark grey

B/D

Carmen is a nostalgic design based around a Roca design classic of the 1940's and launched to celebrate the centenary of the Roca group founded in 1917. Comprising of WC's and basins, furniture, brassware and accessories, all of these elements combined give a real look and feel of nostalgia. Furniture Features: ■ Hitech hinges ■ Marble countertops for 1300mm – venato white or black marquina ■ Double wall front and sides ■ Push to open doors and drawers ■ Self close drawers

Contemporary

Arlington - Matt white, matt storm grey and matt viridian green **NEW**

C/H

Basin Units: Available in two widths, 600mm and 800mm, to suit bathrooms small and spacious. Choose from 3 sophisticated finishes: Matt White, Matt Viridian Green and Matt Storm Grey for a contemporary tone.

Customisation: Available with the option of conical legs, the furniture can be configured either as floor-mounted with a choice of four leg finishes – chrome, matt black, brushed brass, and gunmetal, or wall-mounted for a floating effect. Choose from a wide range of handle and pull options to personalise your furniture, including brass, matt black, gunmetal and classic chrome finishes, as well as colour-matched handles for a sleek and subtle look.

Storage: With both deep drawer space and tall drawer options, each configuration ensures ample storage, complemented by a spacious ceramic basin. With high-quality, soft-close runner drawers that provide a quiet and smooth operation.

Match is available in five finishes with a choice of handle and trim colour on selected finishes

TAVISTOCK

If it's a sleek minimal solution for a small space you need, then look no further than Match. A basin unit cleverly paired with a back to wall unit to suit a 1000mm or 1200mm run, topped by an isocast basin with integrated worktop (sold separately) for a seamless contemporary look. A single compact one metre unit which incorporates a 500mm basin unit and a 500mm back to wall unit and the 1200mm includes a 600mm basin unit and 600mm back to wall unit.

Match Furniture Collection - Chrome Handle and Trim included

- Soft close doors
- Basin, pan and cistern sold separately

Legacy - Flax, metro grey, matt mineral blue and matt dark grey

Legacy offers the flexibility and versatility you need to create a unified, traditional look. Standard and slim depth unit options are available.

Calm - Gloss white, gloss light grey, matt mineral blue and matt dark grey

c

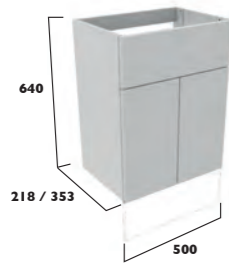

Create your bespoke Tavistock fitted furniture in a few simple steps:

1. Choose from the classic shaker style of Legacy or the ultra-modern simplicity of Calm slab style doors, then choose your desired finish.
2. Consider the available space in your bathroom and choose from either standard depth (353mm) or space-saving slim depth (218mm) units.
3. Add the perfect finishing touch to your chosen doors with one of our stylish handles - see page 158.
4. Select a worktop from either our solid surface or laminate options. Alternatively opt for an integrated basin and worktop for a seamless look.
5. Choose your preferred basin and WC to match the styling of your bathroom.
6. Complete the look with coordinating brassware and mirrors.
7. Finally, clad-on end panels, plinths and bath panels are available for all finishes - see page 160.

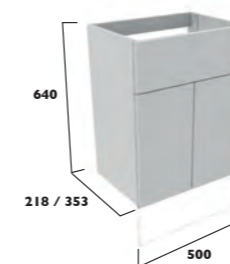

Legacy - Flax, metro grey, mineral blue and matt dark grey

Amesbury - White, grey and blue B/C

Amesbury is inspired by the bathroom designs of the early 20th century, reflecting the styles from Edwardian period and sharing visual characteristics from the Art Deco era. The charming freestanding vanity units are available in 3 fashionable painted matt colours, white, blue and grey with ceramic basins with upstands, in 1 or 3 tap hole or the smaller 2 tap hole cloakroom option. The vanity units can be accompanied by the WC unit and additional storage cupboard and complemented by the Amesbury sanitaryware which you will find on page 58 - 59, along with the matching toilet seats. Lifetime ceramic guarantee.

Burlington[®]

Capturing designs reminiscent of the late 1800s-1900s, Chalfont furniture draws inspiration from these phenomenal eras to bring beautiful representations with modern day practicality. Featured in contemporary colours, this opulent design makes the perfect addition to homes of today. From grand units accentuated with hints of Gold, to elegant cloakroom styles that pair effortlessly with Chrome touches, Burlington's Chalfont furniture collection ensures stunning traditional designs to suit your space.

Riviera – Matt white, matt pink, matt blue and matt black **NEW**

C/G/B

The Riviera Collection harks back to the sophisticated elegance of the 1920s, a decade in France known as 'les années folles' (the crazy years). This was a time of great prosperity after the hardship of World War I, when social, artistic and cultural dynamism led the way to a new, relaxed and affluent way of living. Taking inspiration from this period of prosperity, renowned designer Christian Booth, has created The Riviera Collection by Burlington, offering a streamlined bathroom design, at home in either a traditional or contemporary setting, where form is celebrated and function preserved.

Hackney

Britton's stylish Hackney wall-hung modular furniture collection is available with a choice of four colours. A modern design with customisable options, Hackney offers you the choice to tailor your own storage solution from 500mm to 1200mm with the drawer units, shelving units and worktop options, or a basin unit in 3 sizes, to ensure your storage fits perfectly to your needs. With a slim 390mm depth, Hackney is ideal for any bathroom.

Hackney drawers are constructed from hard-wearing HPL board, with genuine Hettich runners featuring full extension and smooth pull to open soft close operation. Drawers have a concealed handle pull, 25kg weight capacity and include two-way adjustment.

Carrara or Marquina marble effect worktop options are available to pair with your Hackney unit from 500mm to 1200mm and a choice of countertop basins to make a real impact in your bathroom.

Hackney Wall Hung Units – Cherry wood effect, earthy green, matt black and gloss white

C/G/B

Customise your storage: Hackney furniture offers modular solutions for those who want to personalise their storage unit. By combining a drawer unit (available in 500mm, 600mm or 700mm) with a 200mm shelving unit and worktop options (available in 500mm to 1200mm) you can create your own perfect solution. A small selection of the options you could create are shown below.

BRITTON®

Whether you're after a dusty blue modern vanity unit to bring a slice of paradise to your bathroom or an earthy green vanity unit to bring the outside in, Camberwell has you covered. This stylish range helps to create your dream wellness bathroom and is available in four stylish colourways. The Camberwell 600mm unit with basin is the modern vanity unit your bathroom needs to bring a calming vibe to your space.

Its smooth, curved edges and simple yet on-trend design makes it the ultimate stylish furniture piece to complete the wellness bathroom of your dreams. This sophisticated design features soft-close, pull to open drawers that aid in keeping the tranquillity of your bathroom intact by reducing harsh noises. The double drawer design provides ample storage to keep your modern bathroom always looking organised and tidy. The Camberwell furniture range also provides customisation of the handle colour to match your brassware finish.

Vitra Sento

Sento brings scandinavian style into the bathroom

This furniture range is designed to complement the popular Sento WC pan. Four matt furniture finishes and five basin sizes are available, including a compact cloakroom option. With sensor LED lighting underneath the washbasin units and a leg set option, this range provides a new take on bathroom furniture.

Sento - Matt white, light grey, matt fjord green and matt anthracite

Sycamore Lighting Bathroom range features a stunning collection of LED illuminated mirrors & mirror cabinets. A selection of mirrors and cabinets are tunable white, enabling users to change the colour of the LED from warm white, natural white or to cool white to suit individual preference or decor. Some also feature Bluetooth Speakers, Shaver Sockets or USB charging ports.

Bath Feet

Cast from robust aluminium and expertly finished, Tavistock bath feet are inspired by the original Regency lion paw design and are designed to be paired with their traditional baths. Available in three finishes to suit any scheme.

- The overflow and waste is universal and compatible with all traditional tubs
- The pipe can be cut down to suit all Tavistock traditional bath tub models.
- One pack of feet contains four feet and all fixings required
- The feet are universal and work on all traditional tub options
- Feet are supplied with floor fixings to secure the bath tub in position and have a height adjustable levelling feature

Contemporary baths

TrojanCast: Our Intensive Reinforcement

Trojan built a complete new factory to manufacture TrojanCast products.

Separate from all other production areas, the dedicated factory has been equipped with the latest technologies and is run by a team of specialist personnel who take pride in each and every TrojanCast bath they produce.

Quality means everything

At each stage of production each individual bath is checked to ensure it reaches our high standards. Each individual employee that checks the bath stamps a label acknowledging they have fulfilled their job requirement. This ensures that the bath manufactured meets our quality criteria. This check label is placed on the back of the bath and remains with it through to delivery and installation.

Adding value at every stage

As well as the natural benefits of acrylic and the intensive reinforcement of the TrojanCast process, all TrojanCast baths come with our luxury fittings pack.

The guarantee on a TrojanCast bath increases from our standard 25 years to 30 years, giving you extra peace of mind.

Steel baths (Band A)

Roca steel baths have a number of benefits, including:

- Scratch, stain, impact, chemical, acid and UV resistant
- Heat conducting, so water stays warmer for longer
- Easy to maintain and can be cleaned without affecting the finish
- Tested for loads up to 300kg
- 25 year manufacturer's guarantee
- The Eco range has a water saving capacity of 130lts; ideal for the market that has to comply with the code for sustainable homes creating a more sustainable future.

Bath Panels

Whether you are considering tiling your bath in or using a standard panel, Trojan offers a wide range of quality solutions suited to any budget and design. Their wide range of bath panels will help play an essential role to your bathroom's overall interior style and finish.

High impact polystyrene panels offer an entry level solution. The Supastyle and Flat panel are timeless in their design.

The mid to upper level solution is provided by the Titan, an innovative twin skin panel offering a simple design that hides an engineered second panel that offers substantial strength and durability.

DURABILITY **VALUE**

Did you know?

1 in 8 adults (around 6.5 million people) in the UK are carers. By 2037, it's anticipated that the number of carers will increase to 9 million. Over 1 million people care for more than one person too.

Hapi8

Experience the perfect blend of stylish minimalism and timeless elegance with Hapi8 wetroom enclosures. Embrace the modern sophistication they bring to any bathroom design, enriching the ambiance to new heights. Elevate your home with a wetroom deserving of admiration and indulge in the luxurious showering experience that only Hapi8 can provide.

Discover the versatility of Hapi8 wetroom glass panels, 8mm thickness and standing tall at 2000mm. Choose from a range of sizes, spanning from 500mm to 1400mm, enabling seamless integration into any bathroom layout. These panels adapt effortlessly to numerous configurations, offering you endless possibilities, with three stunning finishes and decide between clear or framed glass, which paired with the Tunbridge Wells brassware, perfectly complements your space and design aspirations. The flipper panel is available in clear or Fenetra framed glass, reducing the splash and spray from the shower area, opening through 240°.

Hapi8 Wetroom available in chrome, brushed brass and matt black profiles

Hapi EV8 sliding door options

Hapi8 Wetroom Configurations

B

After identifying your available space, you can design a customised showering solution using our versatile, modular glass panels, profiles and stabilising fixtures. With these components, the layout possibilities become nearly limitless. For optimal Wetroom results, we advise allowing a minimum entry space of 500mm

--	---	--

Hapi EV8 represents an evolutionary approach to design, skilfully integrating the finest elements of Hapi8 wetroom glass with the enhanced security offered by an enclosure. Its adaptability and flexibility allow it to be tailored as either a wetroom solution, featuring an extendable sliding panel for extra coverage, or transformed into an enclosure with recess and side panel alternatives. Regardless of the chosen configuration, Hapi EV8 maintains its sleek, modern, and minimalist design.

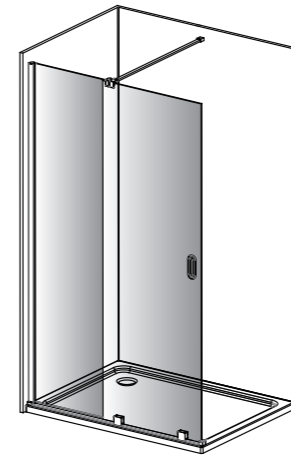

Hapi EV8

Walk-in

Hapi EV8 – 2000mm high

B

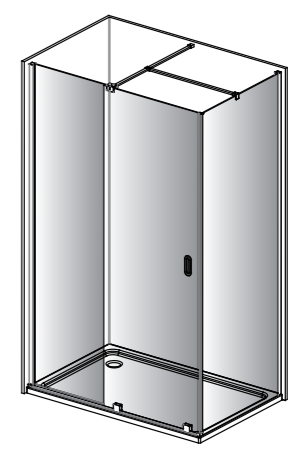

Key Features: ■ 8mm toughened safety glass ■ 2000mm high ■ Available in silver, matt black, brushed brass finishes ■ Generous adjustment
 ■ Concealed fixings ■ Ultra smooth and quiet slider operation, using stainless steel roller and round bottom rail ■ Dedicated side panel with magnetic profile to aid door closing ■ Clean easy protection ■ Lifetime guarantee

- 1 x Deflector Panel
- 180° Hinges (pair)

We wouldn't recommend installing a deflector panel if you have chosen a glass to ceiling bracing bar

Walk-in Traditional Enclosures

C/G/B

- 2000mm high
- Adjustable up to 15mm from each wall
- 8mm safety glass
- Easy clean coating
- Reversible panels
- Choice of bracing bar options
- Suitable for tray or tiled floors

Once you have identified your space, the layout options are almost endless. You can create your personalised showering solution, with our flexible modular glass panels, profiles and stabilising fixings. When choosing your configuration, Burlington recommend you allow 500mm minimum entry space.

Glass Panels – wall profile required with every glass panel

Code	Size	Price

Gel coated stone resin

TRAYMATE Elementary

- Stylish, contemporary design which will look good for years
- Available in 34 different sizes (Market leading Anti-Slip option available in 29 sizes)
- Made from 100% natural stone resin. Fully recyclable
- Ultra-low profile 25mm high. Typical installation 10-15mm entry step
- Can be fitted on all types of floor or off of the floor with simple leg set option
- Recommended for general family. Elderly users advised to use Anti-Slip option
- Dedicated high flow waste unit with adjustable square cover (Not included - purchase separately)
- Fully complies with EN274 European standard for shower flow rates
- Tough repairable gel coat surface
- Lifetime guarantee
- Water removal tested to 28 litres per minute
- Designed and made in UK

The Elementary shower tray is designed and produced by Traymate - a leading UK manufacturer.

This 25mm range is made of high quality, gel coated stone resin and is designed to be fitted on-the-floor, giving minimal threshold entry. The Elementary is offered with a dedicated high flow 90mm waste unit and an adjustable square waste cover (sold separately). If on-the-floor fitting is not an option, this range offers a simple easy-fit leg system (also sold separately).

TRAYMATE Elementary Anti-Slip Technology

- Patent protected - Unique surface, built into the structure of the tray
- Market leading anti-slip rating – almost twice the industry standard
- Lifetime anti-slip guarantee. No need to repair or replace surface later
- Easy to clean surface
- Suitable for all users
- Suitable for all domestic applications, hotels and commercial contracts
- Comfortable under foot
- Dedicated high flow waste unit and adjustable cover (Not included - purchase separately)
- Designed and made in the UK

All retail prices include VAT

The Elementary Anti-Slip is a unique, market leading shower tray.

Whereas many anti-slip products need their surfaces to be re-applied regularly, the TM25 Elementary Anti-Slip surface offers a permanent lifetime guarantee. The patent protected surface also provides almost twice the industry standard of slip resistance.

Easy to clean, preventing build-up of soap and limescale. This helps ensure the tray retains its anti-slip qualities over a lifetime.

Want the wetroom look without the associated costs or fitting challenges? Look no further than the Symmetry range. Available with a patented anti-slip surface as an optional extra, the 25mm Symmetry offers the look of a wetroom at a fraction of the cost. Installed like a traditional shower tray but with a simple flush to the floor option. Smart Water Management Technology with an advanced surface design and a unique vortex waste unit (included) combine to clear water almost instantly at over 30 litres per minute. No moving parts within the waste trap, means no maintenance and no risk of flooding.

Gel coated stone resin

The ultimate in modern shower tray design from Traymate, the home of shower tray innovation. Inspired by contemporary wetroom design, but fitted as a standard shower tray, the stunning Linear range has the narrowest aperture and slimmest waste grid of any tray currently available. Shower in safety with Traymate's market leading Smart Water Management Technology where advanced surface design and a unique vortex waste unit (included) combine to clear water almost instantly at 30 litres per minute. What's more, no moving parts within the waste trap, means no maintenance and no risk of flooding.

connect²

Introducing Connect2 Slate, a stylish, contemporary super slim shower tray that will enhance any bathroom space.

Manufactured using an antimicrobial additive, these shower trays are easy to clean and offer protection from the growth of microbes including bacteria and mould, ensuring a more hygienic showering experience.

The anti-microbial additive is added during the manufacturing process, moulding it into the product reducing bacterial growth for the lifetime of the tray.

The attractive low profile Connect2 tray will never let a joist get in your way again thanks to the unique offset dual waste outlet. Whether square, rectangular or quadrant – whatever the size, the Connect2 tray will allow you to connect the waste fitting without the need to reposition joists or raise the tray on to a plinth.

Key Features:

- Easy to clean
- Antimicrobial additive offers protection from the growth of bacteria including mould
- Unique design avoids the need to cut joists or lift the tray on to a plinth
- Guaranteed to work with all standard joist sizes and spans
- Structural resin bonded stone filler for increased stability
- Super slim at only 35mm high
- The reinforced colour matched waste cover is magnetically secured, comfortable underfoot and is easily removed for cleaning
- Supplied with a dedicated high flow waste, rated to 35 litres per minute
- Covered by Kudos Lifetime Guarantee

Pre-machined cut flexible Plinth Fascia for Quadrant Trays	24.FPFQ	£25

All Kudos Shower Trays are designed to be fitted to either a wooden or concrete floor and should be fully supported. They can be raised off the floor by up to 150mm using Kudos approved leg sets and provided they are fully supported by a minimum 18mm thick moisture resistant base board (not supplied).

Kstone trays by Kudos are covered by a lifetime guarantee and are made from the highest quality materials with a structural resin bonded stone filler to provide incredible stability. The acrylic capped skin which provides a superb high gloss finish is durable as well as being resistant to impact damage and staining.

Key Features:

- Available in high gloss and slip resistant (White & Grey)
- Slim design at only 45mm high
- Dedicated 90mm waste (sold separately) see page opposite
- Lifetime guarantee

FLEXI SEAL
FLEXIBLE WATERPROOF SEAL

We recommend Flexi-Seal - Flexible Waterproof Seal - in the installation of Kstone trays

Flexi-Seal uses a combination of a durable flexible rubber with a waterproof butyl based adhesive to give maximum protection between the application surface and tiles or panels.

Since the rubber is flexible, it will maintain a watertight seal whilst allowing for a certain amount of movement that is inevitable, particularly with new builds.

Flexi-Seal fits between the edge of the tray and any abutting wall and provides a flexible seal behind the tiles avoiding any issues caused by potential grout or silicone failure.

Product	Product Code	Price
Flexi Seal 2 metres	24.KF2	£35
Flexi Seal 3 metres	24.KF3	£53
Flexi Seal 4 metres	24.KF4	£69

BRITTON
25 YEARS GUARANTEE

Zamori Acrylic Capped ABS

An ultra-slim, acrylic capped polymer resin tray. The trays are flat on the under-surface; this makes installation and levelling very easy.

At 25kg or less all Britton trays can be handled by one fitter, removing the need for a two person lift as recommended by the Health and Safety Executive guidelines for manual handling.

- Low profile - only 35mm high
- Requires a 90mm Vortex Turbo Waste
- Anti-bacterial zeomic agent protecting against harmful bacteria

Waste positions not optional

Roca Terran-N shower tray range made of Stonex®

Extra-slim shower trays that can be installed at floor level allowing easy access to the shower, with drain hole closer to the wall to avoid stepping on the grid

Class C anti-slip properties, which guarantee maximum safety in the shower, while offering a very pleasant and natural feel.

- Extra slim tray with a drain hole closer to the wall
- High durability and hygiene
- Easy cleanability
- Low maintenance
- Repairability
- Including Twist design colour matched stainless steel grid
 - Large range of sizes that can be cut to measure
 - High flow waste with hair trap - sold separately

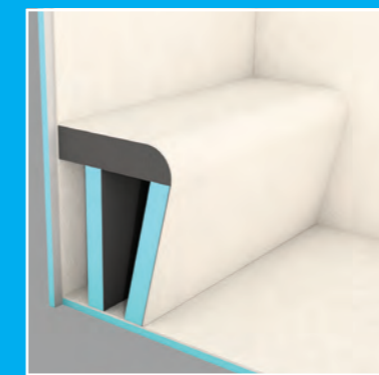

All retail prices include VAT

Wellbeing begins at home

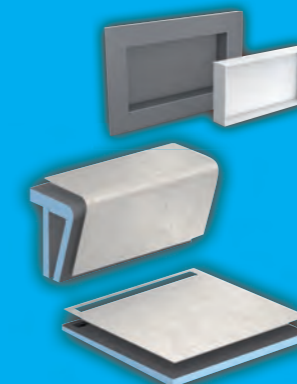

Spa day Every day

The wedi Home Steam Shower Kit is now available to order with a 7 - 10 day lead time

A Preformed, seamless surface for the bench with rounded edge

B Preformed seamless surface for the shower tray

C Preformed seamless surface for the niche swap to the larger niche 634 x 100 x 334mm

Size: External 1900 x 1000mm Internal 1800 x 900mm

For the complete wedi Steam Shower experience, select the shower kit and choose from the options below to create your ideal, low-maintenance, hygiene promoting sanctuary. Alternatively select the shower kit and then personalise the décor with your own choice of tiles and finishes.

Excludes shower valve and kit, see pages 362 - 410

solid surface showers

solid surface showers

- Scratch resistant
- Seamless connection
- Antibacterial
- Easy to clean
- Soft & warm material
- Customisation possible
- European quality

The **Solid Linear** shower tray is elegant, giving a minimalistic look for the modern bathroom. The waste is positioned on the shortest side and includes a waste cover in the same colour and material as the shower tray. Thanks to its cast-in drain pan with I-Drain® waste (drain cover included), there are no potential leak points and a very low installation height (89mm including siphon) is achieved.

Complete your shower set-up with our magnificent collection of **wall panels**. Panels are 2500mm high and are max. 1200mm wide. They have a 9mm thickness. The Solid Connect method enables the panels to be bonded vertically with a barely visible joint and is 100% waterproof. The panels can be customised on site, they are easy to fit and they are coloured to the core which means that minor scratches or damages can be easily sanded out.

Available from stock in **White** and **Concrete Dark**. Other colours available by special order: Concrete Light, Pergamon, Imitation Bluestone and Granite Grey. www.dzignstone.com

The all in one design drain

The new all-in-one or AIO I-Drain® is a shower channel with a high design content that can be perfectly combined with the latest trends in contemporary bathrooms. The I-Drain® AIO is a shower channel that offers a solution for every possible situation, and was developed on the basis of our many years of know-how. The grating is barely 33 mm wide and can easily be shortened if required to create a wall-to-wall effect. If you want to have a large walk-in shower, you can even use the optional extensions to extend the grating. Available by special order

Wetroom Shower Decks & Panels

Recognised for their ease of fitting and reliability, Kudos Aqua4ma wetroom systems have been successfully installed in 1000s of UK homes.

Choose from two style options: End Waste which can be finished with straight tile cuts and Central Waste, which can be finished with angled tile cuts.

- Quick and easy to install
- Easily trimmed to fit or to avoid joist obstruction
- Overall depth of just 25mm
- Suitable for vinyl, tiles or micro-cement
- Fit anywhere in the home on wooden or solid floors
- Can be fitted at joist level on wooden floors*
- Ready for tiling immediately with no wet trades required
- Compatible with Aqua4ma floor and wall panels for a total wetroom installation
- Lifetime Guarantee**
- British Made

* Decks should be fully supported by creating a false floor between joists

** Terms and conditions apply

Aqua4ma Evolution End Waste Shower Deck:

Measuring 1340 x 1000mm the Aqua4ma Evolution End Waste Shower Deck can be easily trimmed from either (or both) sides or from either end that meets a wall.

Aqua4ma Evolution Centre Waste Shower Deck:

Available in 7 sizes the Aqua4ma Evolution Centre Waste Shower Deck offers a versatile solution for any wetroom installation. Each deck can be trimmed from any side that meets a wall.

Aqua4ma Evolution shower decks combine all the benefits associated with the Aqua4ma system with additional features which reflect the evolving demand for more versatile, lower-level and cost-effective installations.

Versatile – Quick and easy to install – British Made – Lifetime guarantee

Individually made: each Aqua4ma Evolution shower deck is individually CNC machined from a solid block of specially formulated high density exterior grade PVC; the material is totally waterproof requiring no additional treatment.

Weld, screw or glue: Aqua4ma joints are solvent welded together with Aqua4ma solvent paste to provide a one-piece permanent waterproof barrier that is guaranteed for life. Aqua4ma Evolution shower decks and panels can be screwed to wooden floors and battens without any washers as the material self seals around the screws. Alternatively Aqua4ma decks or wall panels can be glued to solid floors and walls using flexible tile adhesive.

Trimming: Aqua4ma Evolution shower decks can easily be trimmed and shaped using a hand or circular saw.

Finishing: Once fitted, the decks and panels are ready for immediate finishing with vinyl, tiles or micro-cement.

End waste shower deck consists of:

- 1340 x 1000mm Evolution Deck
- Stainless Steel Waste Support Plate
- 2 Side Levelling Strips
- Waste Assembly (**order separately**)
- Tile Thickness Adjustment Mouldings
- Stainless Steel Waste Grid (Polished Silver or Matt Black)
- 90mm waste

Centre waste shower deck consists of:

- Evolution Deck
- Stainless Steel Waste Support Plate
- Waste Assembly (**order separately**)
- Tile Thickness Adjustment Mouldings
- Stainless Steel Waste Grid (Polished Silver or Matt Black)
- 90mm waste

Wall panels

Waterproof Core – 2420 x 1200 x 11mm (15 year guarantee) c

Nuance is Bushboard's award winning bathroom wall panel system, created for showers, wetrooms and around the bath. The designs are not just beautiful to look at but uncompromisingly high performance and easy maintenance too, as it's uniquely fitted without extrusions and 100% waterproof guaranteed.

Wide choice of designs and textures that can create individual interiors: traditional, modern or contemporary, there's a design that will work for you. Manufactured without wood, using a patented polyurethane core impervious to water.

Seamless: no grout lines to scrub at, it just needs a simple wipe down for day-to-day cleaning. The watertight panel joints are virtually invisible to the eye.

Flexibility: different choice of sizes, it can be used to create a true wetroom, to panel out a shower enclosure, go round the bath or behind the washbasin.

Easy to install, the panels can be cut and installed in a matter of hours, making them an ideal alternative to tiling.

No trims required with the smart postformed edge.

Easy maintenance surface and stylish designs, the best solution for this boutique hotel look in your own home.

iSystem – Smart

C

Intuitive and effortless, iSystem is the ultimate in Smart showering. Featuring a sleek and sophisticated control, iSystem oozes elegance and style with an intuitive LED display. For the shower that is ready to go when you are, iSystem Smart has been designed with a sleek and easy to use controller. Experience precise temperature control with tried and tested Aqualisa® SmartValve technology, enjoying thermostatically blended water with every use. A perfect mix of form and function, iSystem Smart features a handy LED indicator on the control to let you know when your water has reached the desired temperature. Compatible with an optional wired remote, iSystem Smart shower provides design features the modern bathroom needs. An exposed shower offers great installation benefits if you're looking to fit a new shower with minimal disruption to existing decor. This type of Smart shower is the perfect renovation and modernisation accompaniment, offering an easier installation than concealed models. The Aqualisa® SmartValve can be situated away from the shower enclosure, typically in the loft, under the bath or in an airing cupboard. This is where the water is mixed with thermostatic precision. Smart showers offer far more flexibility than a traditional mixer shower, making them a great choice for all bathrooms. Sensational showering at the touch of a button. Available as single or dual, concealed or exposed options that work with all approved UK water systems.

Single or Dual Outlet ■ Voice controlled smart showering using Google Home Assistant and Amazon Alexa - turn your shower on using your voice. ■ Interactive dashboard tracks and records water consumption, time and indicative costs. ■ Intuitive LED lights to indicate when selected temperature has been reached and the shower is ready for use ■ 5 years parts and labour guarantee when registered with Aqualisa®

How to choose your shower

When choosing the ideal shower style for your home, it's essential to consider the type of water heating system installed. The performance and compatibility of your chosen shower depend on this crucial factor. To determine your water heating system, you can refer to a quick guide provided here or seek advice from a qualified installer. By doing so, you can ensure that you select the right shower and fully enjoy a satisfying and invigorating showering experience.

In the UK, the typical setup for gravity-fed hot water systems involves a cold-water storage tank located in the loft and a hot water cylinder situated in the airing cupboard. This traditional configuration has been commonly installed in UK homes for water supply purposes.

High-pressure systems in the UK are commonly powered by either an instantaneous gas water heater or a combi boiler. The popularity of combination boilers is on the rise, where the water is heated as it is used, and these boilers can be wall-mounted or floor-standing.

On the other hand, unvented systems store hot water in a sizeable, pressurised cylinder. Unlike gravity-fed systems, unvented systems do not require a cold-water storage tank. This setup allows for efficient and consistent hot water supply without the need for additional storage.

Concealed

Concealed valves offer the advantage of flexible placement, allowing them to be installed on a different wall from the shower outlet they control. This feature enables you to position the valve at the entrance to your shower on one wall, while placing your shower kit (slide rail, fixed head, etc.) on the opposite side, providing a convenient and customisable setup. Additionally, concealed shower valves discreetly hide their working parts behind the wall, resulting in a cleaner and more aesthetically pleasing design and appearance for your bathroom.

Single outlet, two controls

The twin concealed valve features separate controls for both temperature and flow, providing enhanced flexibility and convenience. With this valve, you can operate a single shower accessory, either a fixed head or a slide rail kit, to suit your preferences and needs.

Double outlet, two controls

The twin concealed valve offers separate controls for temperature and flow, providing added versatility. This valve allows you to divert the water flow between two different shower accessories, for instance a fixed head and slider rail kit.

Double outlet, three controls

The triple concealed valve features separate controls for temperature and two flow handles, offering enhanced control and convenience. With this valve, you can operate two shower accessories independently or simultaneously, giving you the flexibility to choose from various combinations. You can enjoy the fixed head & slide rail kit or fixed head & body jets, allowing you to customise your shower experience according to your preferences and needs.

Triple outlet, three controls

The triple thermostatic shower valve is designed to supply water to three outlets, such as a fixed shower head, handset, and body jets. This valve incorporates three handles for ease of use. One handle is dedicated to controlling the water temperature, ensuring you can achieve your desired level of warmth. With two flow controls and a diverter, enabling you to seamlessly switch the water flow between any two of the three outlets. This combination of features grants you ultimate control over your shower experience, allowing you to enjoy a variety of showering options with just a simple adjustment.

Exposed

Exposed shower valves are typically horizontal bars located outside the wall, containing all their components within. Although they may not have the same streamlined appearance, they are generally more affordable to purchase and install.

Exposed shower valves become an ideal choice when solid brick walls prevent the installation of concealed valves. They offer faster and simpler fitting since only the hot and cold-water pipe feeds need to be embedded in the wall, not the entire valve. This can help reduce your installation expenses.

Bar Valve

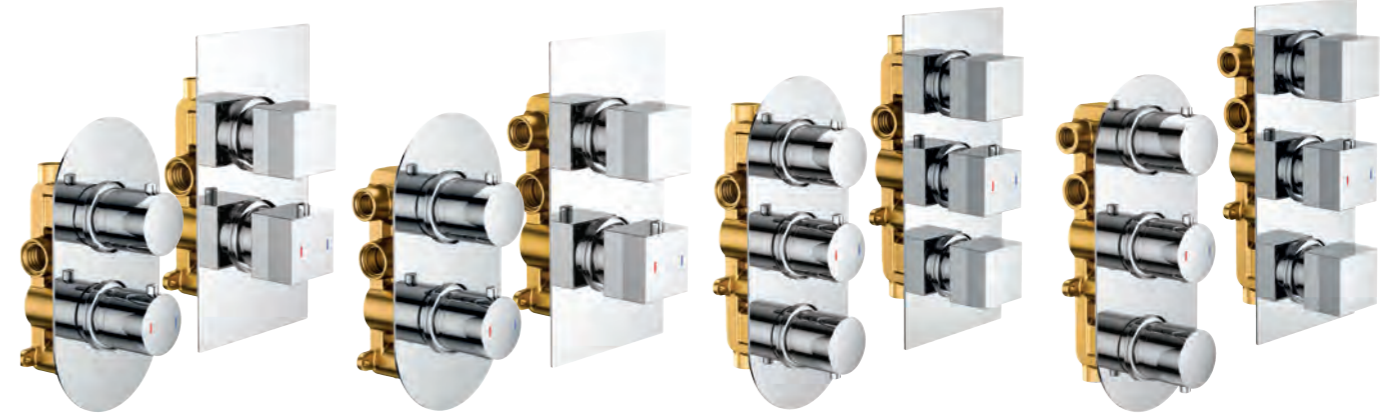

The bar valve with bottom outlet is designed with separate controls for temperature and flow, offering you precise control over your shower experience. This valve is specifically intended to operate a slider rail kit, making it a convenient and practical choice. With its user-friendly design, straightforward installation options, and budget-friendly price, the bar valve is an excellent option for numerous refit projects. Whether you're renovating your bathroom or upgrading your shower, this valve proves to be a reliable and cost-effective choice for enhancing your showering experience.

First the discovery of the chalybeate spring in the early 17th century. Later the fashionable world would stroll under the avenue of trees, drink coffee and try the iron rich water. Today's visitors can still sample some of the pleasures of the old, in more genteel and less formal surroundings which combine old charm of the pantiles with a touch of continental lifestyle.

The Pantiles - Chrome finish with ceramic indices ■ Min 1.5 bar to 6 bar

10.5kW	58.RGS10	£264

Choosing the right Product

Gravity-fed systems

Salamander Pumps GravityBooster range provides a solution to poor water performance in gravity-fed systems. Choosing the right product for the system is vital to ensure the longevity and smooth running of the pump.

Identified by a cold-water storage tank in the loft and a hot water cylinder stored in the airing cupboard, gravity-fed systems are renowned for poor water pressure and flow. The image on the right shows a typical gravity-fed system.

Follow the guide below to find the right pump from our GravityBooster range, shown on the next page, or use our product selector by scanning the QR code -

Twin or single?		
Twin	Single	
Twin pumps have two impellers, so can boost for hot water and one for cold water.	Single pumps only have one impeller which can be used to boost either the hot or cold water.	
Positive or negative head?		
Positive head if:	Negative head if:	
- Showers are already getting 2 litres of water in 30 seconds AND - Individual hot or cold taps are already getting 1 litre of water in 30 seconds	- You cannot get the flow rates required for a positive head pump or if you're unsure	
What do you want to boost?		
One outlet (such as a hot or cold tap)	Shower only	Shower, taps, bathroom or whole house
If only one outlet needs to be boosted then TapBoost offers a solution. View TapBoost on page 415.	All our pumps will boost the shower. If using a single pump to boost the shower, choose a negative (universal) head pump.	Choose from our CT Bathroom, CT Force or Right Pump ranges.
What bar rating do you need?		
1.5 bar	2.0 bar	3.0 bar

Ora - Shower pumps

- Twin pumps for a single thermostatic shower
- Suitable for positive head, gravity-fed systems
- 1 year warranty

1.5 bar twin positive
61.ORA15 **£281**

2.0 bar twin positive

Right Pumps - shower & whole house pumps

- Twin or single models available to boost water pressure to showers, bathrooms or the whole house.
- Using centrifugal force to boost water pressure makes these pumps very quiet.
- Utilising centrifugal force also makes them more flow efficient, as more outlets open the pressure drop is less noticeable compared to other pumps.
- Models for positive or negative head, gravity-fed systems
- Quiet
- 5 year warranty
- Continuously rated

Choosing the right product

Mains-fed systems

Salamander Pumps MainsBooster range includes inline pumps and accumulator tanks, offering a solution for properties where the incoming mains water performance is poor. Choosing the correct product for the needs of the property is important to delivering the desired results.

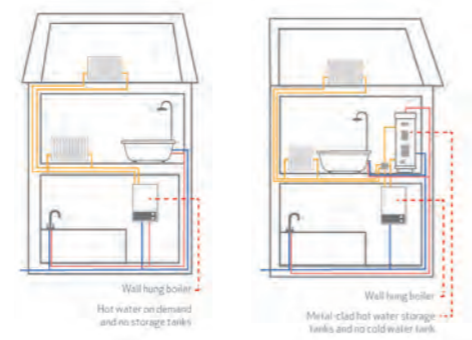

The range has solutions for combi boiler systems, identified by no stored water and a wall hung boiler, and for unvented systems, identified by a metal clad water storage stand, no cold water tank and a wall hung boiler. The images to the right show both these system types.

Identified by a cold-water storage tank in the loft and a hot water cylinder stored in the airing cupboard, gravity-fed systems are renowned for poor water pressure and flow. The image on the right shows a typical gravity-fed system.

Follow the guide below to find the right product from Salamander's MainsBooster range, or use our product selector by scanning the QR code.

Mains-fed: combination boiler Mains-fed: unvented cylinder

Use the questions below to determine which product is suitable -	
1. Do you need to boost one or more outlets?	If only one outlet needs to be boosted then TapBoost offers a solution. If you need to boost more than one outlet continue to question 2.
2. Pumped or unpumped?	Choose pumped if one of the following applies*: • Water pressure less than 2.0 bar • Water flow less than 12 l/min • Highest outlet is 2nd floor or above
3. Combi boiler or unvented system?	• All options are suitable for a combi boiler. • Choose a 300L or 450L model if unvented.
4. How many outlets will be used at one time?	Calculate the flow rate per minute of the outlets you want to run at once using our flow rate guide. Choose the relevant column on the table and see what products are suitable. We recommend at least 9 minutes of boosted water for a shower.
5. What space is available?	If space is limited you may need to choose a smaller model. Water flow will still be improved. Multiple tanks together can be linked to gain additional capacity and make the solution flexible to the space you have.

Flow rate guide	
Outlet	Estimated flow rate (L/min)
Standard shower head (less than 150mm)	12
Large shower head (greater than 150mm)	15
Electric shower	9
Drench shower head	25
Shower with body jets	+8 to above
Bath	15
Tap	8

The grid below shows how long each product will deliver the flow rates, specified in the top row from 10 to 36 litres per minute (L/min). The flow rate assumes 12L/min will be delivered from the mains for unpumped models or by the pump for pumped models.

	Flow rate (litres per min)														Vessel recharge time [^]
	10 ltrs	12 ltrs	14 ltrs	16 ltrs	18 ltrs	20 ltrs	22 ltrs	24 ltrs	26 ltrs	28 ltrs	30 ltrs	32 ltrs	34 ltrs	36 ltrs	
CombiBoost	Cont.														
HomeBoost	Cont.	Cont.													
AccuBoost 60L	Cont.	Cont.	9 mins												5 mins
AccuBoost 120L	Cont.	Cont.	23 mins	9 mins											10 mins
AccuBoost 180L	Cont.	Cont.	37 mins	19 mins	9 mins										15 mins
AccuBoost 300L	Cont.	Cont.	78 mins	26 mins	26 mins	20 mins	16 mins	13 mins	12 mins	10 mins	9 mins				20 mins
AccuBoost 450L	Cont.	Cont.	108 mins	36 mins	36 mins	27 mins	9 mins	18 mins	16 mins	14 mins	12 mins	11 mins	10 mins	9 mins	25 mins

Size and design of pipework within the property may impact on the flow rate provided.

*These products may not be suitable for a restrictive or lead mains supply. Contact Salamander Pumps on 0191 516 2002 for specification support.

[^]Quoted recharge time is for the vessel, time will vary depending on system volume.

TapBoost - Single Outlet Pump

Suitable for mains and gravity fed systems, TapBoost will boost the water flow to a single outlet to 7 - 12 litres depending on the incoming flow.

- Quicker bath-fill
- Stronger flowing taps
- Suitable for hot or cold water
- 2 year warranty

61.TAPBOOST £222

HomeBoost - Inline Pumps

The HomeBoost pump will sit directly on the incoming mains water and boost water flow up to the specified amount.

HomeBoost is an intelligent pump that recognises when flow is low and automatically boosts the performance of the incoming mains water up to 12 litres per minute, boosting water flow to the whole house.

- Install directly onto incoming mains using 3/4" BSP fittings
- Simple to install
- Quiet operation
- HomeBoost 3 year warranty

61. HB £632

AccuBoost - Accumulator Tanks

Available in pumped and unpumped options, AccuBoost accumulators will improve mains water performance in domestic and light commercial installations. They are ideal for use with combination boilers and unvented systems, where there is poor water pressure and flow.

The pumped variants will offer a solution when the current mains supply is below 12 litres per minute, or the static pressure is below 2.0 bar. The pump will always maintain a flow rate of 12 litres per minute in addition to the extra flow from the tank.

- Lightweight, composite material
- Supplied as one unit ready to install
- One person lift (ACC-060, ACC-120)
- Link multiple tanks together for additional capacity
- 3 year warranty

“First there was water and a chance encounter”

THE TUNBRIDGE WELLS
Brassware Co.

Inspired by the desirable destination of Royal Tunbridge Wells, this exclusive collection offers contemporary and traditional designs in classic and modern finishes

Step into the story of Tunbridge Wells
“A small corner of England with a big history”

Over 400 years ago, a natural spring welled up from the ground and it was named
“THE TUNBRIDGE WELLS”

Tunbridge Wells Brassware Co. ranges feature:

- Premium taps include swivel aerator and premium cartridge on mono taps
- Brass body
- Ceramic disc technology
- WRAS approved technology where indicated
- Cold start where indicated
- Low pressure where indicated
- High quality chrome finish, or where illustrated, durable matt black or durable brushed brass finish
- Lifetime brass body guarantee

Unless specified, wastes are sold separately. For Tunbridge Wells Brassware Co. wastes, see page 456 - 457

Typical operating requirements:

Mono taps and Pillar taps - 0.5 bar min. Bath fillers and Bath Shower - 1.5 bar min. Shower valves - 1.5 bar min

THE TUNBRIDGE WELLS
Brassware Co.

Premium traditional

First the discovery of the chalybeate spring in the early 17th century. Later the fashionable world would stroll under the avenue of trees, drink coffee and try the iron rich water. Today's visitors can still sample some of the pleasures of the old, in more genteel and less formal surroundings which combine old charm of the pantiles with a touch of continental lifestyle.

The Pantiles - Chrome finish with ceramic indices

Brushed Brass 06.TLD2104 **£360**

Unslotted wastes are for use where there is no integral overflow in the washbasin. If your basin is wall hung, choose our modern black or chrome traps, or the more traditional styled version to complement your taps perfectly.

All bath taps are supplied without wastes as it is usual to purchase your waste with your bath. We have a choice of bath wastes with overflow in 2 different lengths depending upon your installation requirements.

Traps & Wastes – Chrome, black, brushed brass or gunmetal C

Bottle Trap
Chrome 06.TRAP6 **£75**

Designer

THE TUNBRIDGE WELLS
Brassware Co.

Introducing the new range of designer radiators from the exclusive Tunbridge Wells collection. Crafted with meticulous attention to detail, these radiators redefine home heating by seamlessly blending advanced technology with stunning designs. This latest collection features on-trend finishes such as contemporary chrome, sleek matt black or matt white, elegant brushed brass, and sophisticated brushed bronze and gunmetal grey, ensuring a perfect match for any contemporary interior.

Hawkenbury Brushed Brass

Each radiator is not just a heating solution but a statement piece, designed to complement and elevate your living spaces. With clean lines, geometric patterns, and organic shapes, our designs cater to both modern and traditional tastes. Whether you desire a bold centerpiece or a subtle accent, our radiators offer a versatile array of styles to suit your décor.

Engineered for superior performance, our designer radiators provide efficient heat distribution, ensuring your comfort while maintaining a low environmental footprint. Easy to install and built to last, they are the perfect blend of style and substance.

NEW

Upgrade your home with our designer radiators and experience the perfect harmony of warmth, design, and luxury. Explore the collection today and find the perfect piece to transform your space!

RapidFit™ BY REARO

RapidFit by Rearo offers an instant solution for washroom areas

A quick off-the-shelf option for cubicles with vanity units and IPS panels to order. It is ideal for time constrained projects or instant repairs that do not require any bespoke measurements.

This range has been developed with a variety of environments in mind, offering either an MR MFC or compact grade core - suited to high traffic areas. With nine décors in total, you have the option to work with flat pantones and authentic woodgrains to create a cool tone or warm earthy palette.

*All selected décors are compliant with the Disability Discrimination Act and this should be considered when making your selection.

RapidFit mfc

Toilet Cubicles are available from stock, whilst vanity units and IPS are special order items.

Suited to dry areas of light to medium use, such as offices, our 18mm moisture resistant MFC (Melamine Faced Chipboard) material offers a cost effective washroom solution. Composed of an engineered mix of woodchips and resin, our core is moisture resistant furniture grade, making it suitable for dry environments. Combining a dense outer core for impact with a coarse inner core for fixing strength, RapidFit MFC is wrapped in a thicker carcass, with stronger fixings providing extra stability.

Each RapidFit MFC product is supported by a 5 year guarantee.

RapidFit impact

100%
Waterproof

Impact toilet cubicles, IPS and vanity units are special order items.

For areas with high volume traffic, such as schools and bars, we recommend our 12mm Compact Grade material. Manufactured from several layers of craft paper, impregnated with thermosetting resin, and featuring two decorative sides, RapidFit Impact offers strengthened technical properties. The board is non-porous and therefore 100% waterproof, making it ideal for humid environments. Extremely hardwearing, it is also vandal resistant.

RapidFit Impact's heightened specification gives it a longer guarantee period of 10 years.

*All weights are approximate

Full Length Hinge

A special full-length hinge is available for areas requiring a more robust cubicle structure. The hinge is also designed for restricted areas where the installer is required to shorten standard door sizes. The hinge covers the length of the door, hiding the cut edge. Doors should overlap 20mm on each side.

Full Length Hinge 1800 x 18mm 132.FHCB **£168**

RapidFit FAQ's

- 1.) The supporting foot should only be attached to the CP Partition, it should never be on the CPIL Pilaster.
- 2.) RapidFit can supply colour matched spare PVC edging, however all cut edges should be against walls.
- 3.) Anybody ordering a vanity unit must be advised that they have to build the soft framing that will house this.
- 4.) All of the cubicle layouts are based on 880mm centres, this means that there is 450mm either side of the waste pipe, this can be smaller or occasionally larger.

Flush valves and repair kits

Dual Flush Valves

Victoria Dual Flush Cable Operated Valve

Ideal for use as a replacement in concealed cable operated cisterns typically mounted behind panelling or within furniture units. Also compatible with exposed and close coupled cisterns

Features

- Suitable for 48mm (1½" BSP) and 60mm (2" BSP) outlets utilising supplied 2" adaptor
- 6/4 litre dual flush
- Chrome plated dual flush push button - can replace a traditional flush lever in some furniture and close coupled installations
- Bayonet fitting enables valve body to be quickly and easily removed from the cistern
- Easy adjustment
- WRAS approved

46.VDFV **£30**

Victoria Dual Flush Mechanical Valve

Ideal for use as a replacement in most ceramic or plastic exposed cisterns

Features

- Supplied with a 2" 60mm outlet
- 6/4 litre dual flush
- Attractive chrome plated dual flush push button
- Adjustable internal overflow from 180mm to 280mm
- Bayonet fitting enables valve body to be quickly and easily removed from the cistern
- Long life silicon rubber seal
- Easy adjustment
- WRAS approved

46.VMDFV **£31**

Hydroflo Plastic Tail Compact Float Valve

- Perfect replacement inlet valve for most WC cisterns
- Water saving
- Compact body, float arm & float
- WRAS approved
- fully compliant

Matt White	134.FP1SMW	£51
Brushed Brass	134.FP1SBB	£65
Brushed Nickel	134.FP1SBN	£51

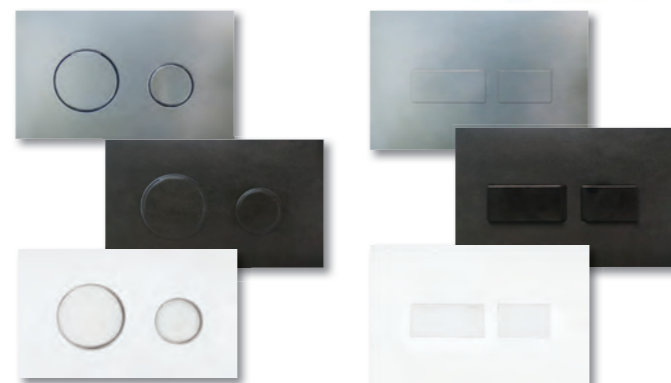

Touchless Flush Valve **NEW**

The **NEW** touchless flush valve can be easily retrofitted to upgrade an existing push button to an automatic flush system. Simply wave your hand to use. The valve automatically detects the required flush volume, whether full or half flush. Flashes can be adjusted easily to 6/4, 4.5/3 or 4/2 per dual flush settings. The touchless flush valve fits most toilet cisterns with a 38mm cistern hole and an external cistern height (including the lid) of 360-390mm. Additionally, the mechanism is battery-operated, eliminating the need for a power connection. Four alkaline batteries ensure more than 40,000 automatic flushes, minimizing the frequency of battery changes. WRAS approved - Waterproof level IPX 6

The **EM1** is compatible with most toilet cisterns featuring a \varnothing 40mm cistern hole and an external cistern height (with cistern lid) of 360-390mm. Moreover, the **EM1** mechanism does not require a power connection, as it is battery-operated. Four alkaline batteries guarantee over 40,000 automatic flushes, so you do not have to worry about changing them often.

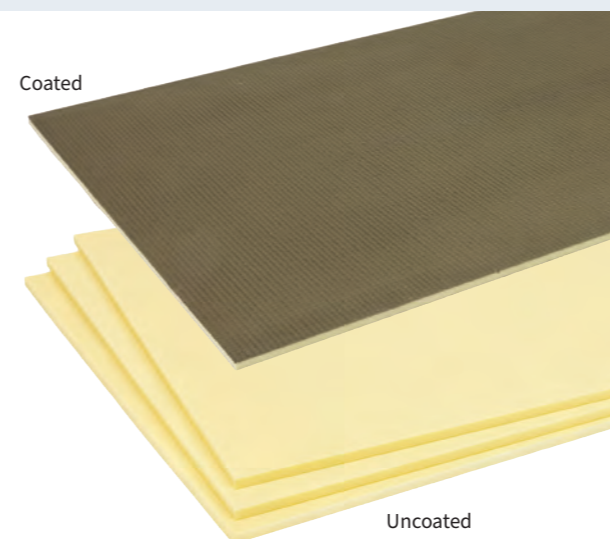

Tile Insulation Board

B

- Extremely effective heat insulating properties
- Totally impervious to moisture and completely rot proof
- Flame resistant
- Allows fast-track surface preparation
- Can be cut to size using a stanley knife
- Extremely stable

Fibreglass reinforced insulation board for use as an alternative to plasterboard and plywood in tiled areas. Can be used on floors, ceilings and walls.

Coated:

ThermoSphere coated insulation board is manufactured using a high density extruded polystyrene with a polymer modified, fibre reinforced cement coating on both sides. The coated insulation board adds rigidity, strength and thermal insulation to timber substrates which maximises the efficiency of the electric underfloor heating system.

Uncoated:

ThermoSphere's uncoated insulation board improves insulation and reduces heat loss into a concrete or screed substrate. Available in a depth of 6mm or 10.5mm, this uncoated insulation board improves the efficiency of electric underfloor heating by more than 50%, is water resistant and 100% rot proof.

ThermoSphere Tanking Paste/Tape

B

All you need in one bucket

- Covers up to four sqm of wall and one sqm of floor
- Seamless tanking system
- Simple application:
 - Prime the surfaces and allow to dry
 - Apply a coat of the seamless membrane with a brush or roller (not supplied)
 - Apply the fibreglass reinforcing fleece to all internal corners, joints and the floor
 - Apply a second coat of the seamless membrane as before
 - Allow to dry thoroughly

- Can be tiled using flexible cement based tile adhesives
- Ideal for use with ThermoSphere underfloor heating
- Suitable for use on plywood, plasterboard, tile backer board and rendered surfaces

Paste	75.HDMWP01	£103
Tape	75.HDMWT01	£50

Underfloor heating

Underfloor Heating Mesh

ThermoSphere Mesh

The ThermoSphere Mesh System is a technologically advanced, electric underfloor heating system, which eliminates the need for a wet heating system.

Stainless
PlatinumDirect
120/150/180/210
Features

- Designed for use with electricity either from mains supply or photovoltaic panels
- Suitable for use with economy electricity tariffs to maximise efficiency
- 3kW incoloy 825 immersion heater for use as a primary heat source
- 3kW incoloy 825 immersion heater for emergency back-up
- 90° elbow and drain valve supplied as standard

Indirect
120/150/180/210/300
Features

- Designed for use with gas or oil boilers, withers sealed systems for open vented
- High efficiency corrugated coil maximises heat transfer to the cylinder of water
- Corrugated coil provides faster reheat times compared to plain coil
- 3kW incoloy immersion heater for emergency back-up
- 90° elbow and drain valve supplied as standard
