

GSI®

Collection 2024/25

Italian Design. Italian Made.

Prices are RRP inclusive of VAT (non binding)

Italian Design. *Italian Made.*

Designed and made in Italy, GSI Ceramica offers the highest quality sanitaryware for contemporary living. Expertly crafted using the latest technology, all GSI products feature pristine profiles and smooth surfaces thanks to the exclusive Antibacterial Extraglaze® treatment for enduring good looks. GSI's five distinctive ranges come with dedicated storage solutions, providing homeowners and designers with pure Italian design inspiration for their bathroom projects.

Based in Civita Castellana at the heart of Italy's ceramic tradition, GSI Ceramica has cleverly balanced traditional craftsmanship with leading edge technical innovations since the 1930's. This approach to production enables the company to offer clean and beautiful designs at the highest quality standards.

Today, GSI Ceramica is a leader in sanitaryware production and a global brand sold in over 50 countries worldwide. The company's commitment to research and development and its strong focus on innovation result in the most advanced and well designed products for the bathroom, all Made in Italy.

Manufacturing

Manual ability and automation, craftsmanship and technology.

GSI products are the result of a complex development process which harnesses the latest 3D system technology in every phase of design and prototyping. This is followed by a high pressure production method, automated enamelling and setting in a kiln running at 1250 C. The entire process is supervised in detail by qualified staff who carry out constant quality checking. Each phase of production, and every item produced, is tested against a strict quality control system conforming to the latest European standards.

Technical, functional and aesthetic requirements form a selected system of products which allow GSI ceramics to only offer its clientele products that are of high level quality endowed with the certified document CE. Over the last few years, the company has invested in the latest generation production plants; high pressure casting systems which are the most innovative and efficient in the sector. This latest technology, allows a quality improvement and also grants a strict supervision throughout the entire production phase, considerably raising the qualitative standards of the finished product.

Adler Mountain Lodge, Alpe di Siusi

Projects

GSI's ceramic collections demonstrate beautiful Italian design and high quality at some of the most impressive buildings around the world.

Kempinski palm Hotel Dubai

Madinat Jumeirah in Dubai

Tiara Chateau Hotel in Paris

Grand Hyatt Hotel in Dubai

Hygienic, high-performance,
long-lasting:

All the marks of a perfect product.

Extraglaze® Antibacterial

99.99% effective antibacterial enamel, ISO 22196 certified.

Dual Glaze +

Satin finish on the outside; Extraglaze® antibacterial finish on the inside: glossy and easy to clean.

Color elements

Special colored satin finishes for a selection of washbasins, WCs, bidets and shower trays.

Swirlflush®

Rimless flushing system: quieter, more hygienic, cleaner.

Silent system

Soft close

Soft-close toilet seat, made with FDA and EPA antibacterial resins.

Quick release

Simple and quick removal of the toilet seat, no tools needed.

**Produced with recycled bottles,
100% recyclable.**

Nature says thank you.

Available from January 2025

Sustainable

Available in glossy white, matt white and Ardesia.

Made entirely using PET-R from recycled plastic bottles.

Made in Italy

Exclusively Italian materials and production.

Colored even within its thickness.

Matching bolts and bumpers.

Available for wc Pura, Kube X, Norm

+ Resistant

Superior mechanical strength, thus more robust and durable than traditional Duroplast products.

+ Hygienic

Thanks to the innovative closed-molecule structure, it does not deteriorate, discolor or give off odors over time.

For sustainable development

A virtuous path
towards
sustainable
goals.

100%

GSI uses power generated exclusively
from renewable sources

Km 0

GSI recycles all ceramic materials, putting them back into a circular zero-mile recovery process.

-350 t CO₂

Our photovoltaic systems generate 750 kW of power per year, resulting in a 350 ton reduction in CO₂ emissions.

For sustainable development

SUSTAINABLE DEVELOPMENT GOALS

Certification of its Sustainability Management System in accordance with:
ESG - SDG Rating: 2022.

GSI Furniture Finishes

GSI's dedicated furniture collections add practical storage and contribute to a stylish bathroom design. Don't compromise on your bathroom colour preference, choose from our huge selection of colour finishes to harmonise and contrast with numerous colour schemes.

GSI offers one of the widest ranges of furniture finishes from a bathroom furniture company. Our talented team of experts have selected a palette of on trend colour finishes across our furniture collections. The GSI furniture collections feature bespoke finishes in addition to our existing colour furniture that complement any contemporary bathroom. All GSI furniture collections are available in GSI colours and special bespoke finishes (excluding matt lacquer). More GSI colours open up the bathroom design possibilities.

We recognise that colour schemes play a key role in creating a personalised bathroom space. If you can't find a suitable finish from our GSI colour range, choose from our selection of over 100 special bespoke finishes to colour match your bathroom surfaces.

For the total look, matching wall cabinets and bath panels are available in the same finishes as basin units.

Colour Elements

Matt White
(Colour ref .09)

Matt Agave
(Colour ref .04)

Composing the bathroom environment means weaving relationships between intimacy, silence, the interior value of a place and forms, materials, lights and colors. In an infinity of possible combinations. To make these expressions unique GSI has enriched its family of products with Color Elements. Seductively physical and with a distinctive character, our new mat finishing's are designed to accompany sit-on washbasins, as

Matt Ghiaccio
(Colour ref .15)

Matt Creta
(Colour ref .08)

Matt Ardesia
(Colour ref .26)

Matt Cenere
(Colour ref .17)

well as semi-built-in washbasins. Matching WC's and bidets come with the special "Dual Glaze finishing that combines an opaque glaze on the outside of the sanitary fixture with a shiny antibacterial extra glaze on the inside. An exclusive feature that ensures maximum hygiene.

Kube X WC Electronic

is a new smart toilet concept that combines a bidet and a WC in a single product. Years of research and development have made it possible to merge the best electronic technology with the functionality of many patented extra features and with the elegant aesthetics that distinguish GSI sanitary ware.

The electronic bidet is the beating heart of Kube X WC Electronic, designed to meet the requirements of both private residences and contracted environments. A stainless steel nozzle provides intimate hygiene, while drying is performed by a high efficiency device. The “automatic bowl draining” function and the lime scale remover make Kube X WC Electronic both reliable and hygienic.

The suspended sanitary unit is the result of a long study that led to the creation of a technically flawless and totally functional product. Neutral and spare lines accommodate different needs in the composition of the bathroom environment.

Components & Fully independent bidet module

A new system was developed consisting of five elements: the toilet bowl, the fixing plate, the electronic bidet, the casing that contains it and the seat.

26 months of work, 7 teams, 54 people were involved in the creation of what we believe is the most functional and hygienic smart toilet on the market. A simple product, revolutionary and particularly sensitive to environmental impact.

The electronic bidet module, which can very easily be installed or replaced like a cartridge, is inserted into the sanitary unit from above and is completely detached from its casing and from the seat.

This hygienic and innovative modular system makes it easy to upgrade with future models of electronic bidets without necessarily having to replace the seat and the WC.

Main features

Kube X WC Electronic's functions have been accurately selected and optimized in order to provide customers the best possible experience. Hygiene, functionality, sustainability and practicality are the key words that make Kube X WC Electronic a cutting edge product.

Cleansing function

Select the preferred nozzle position, water pressure and temperature for the best customized experience.

Bidet function

A gentle water jet especially designed for women. Select the preferred nozzle position, water pressure and temperature for the best customized experience.

Stainless steel nozzle

Carefully designed to give you the best experience, the one-piece stainless steel nozzle is extremely hygienic. It is auto washed before and after every use.

Dryer

Two intensities for best performance. Warm air drying. A gentle air jet with adjustable temperature and intensity.

Energy Saving

Always keep your selected energy saving option under control.

LED Night light

A tiny light under the bowl will guide you to find your Kube X WC Electronic at night. Choose your favorite color. 5 colors of intensities, 5 Levels of brightness.

Anti-lime function

Deep cleaning thanks to an effective programme for lime scale removal. Uses the decalcifying liquid Durgol® especially developed on the basis of water hardness.

Automatic cleansing of the nozzle

The nozzle is washed before and after each use. The nozzle can also be washed manually or with the dedicated programme.

Automatic water renewal and tank draining

Kube X WC Electronic comes with 2 new innovative functions for the best personal comfort. Always uses fresh water thanks to automatic water renewal after 5 days of non-use.

Before an extended period of non-use, press the Stop button to empty the tank, when using again, press a personal hygiene button to refill the tank.

Radar sensor

Smart activation of functions. Detects the user within a range of 50-60 cm from Kube X WC Electronic.

Two profiles

Save and recall your custom settings. You can set your favorite water pressure and nozzle position and recall it during every use.

Functions for all ages

Especially designed for the young and elderly members of the family. Comfort for everyone with gentle water jet pressure and a forward nozzle position.

Home inspirations

Kube X WC Electronic is the ideal solution that also guarantees hygiene in bathroom environments where, for reasons of planning and space, it is not possible to install a traditional bidet. Its technology combined with an elegant and contemporary design also allow it to fit harmoniously into private bathrooms. Particular attention has also been devoted to saving water: its flushing system uses only 3.5 litres of water.

Hospitality inspirations

Kube X WC Electronic enhances hospitality and ensures hygiene and comfort in reception facilities where very often bathroom environments are not equipped with bidets. Thanks to the extreme ease with which the electronic bidet module can be removed – in the rare event that they require maintenance – Kube X WC Electronic also functions perfectly in its WC mode alone. Kube X WC Electronic also makes operations of personal hygiene easier for users with reduced mobility.

Ceramic Extraglaze® Antibacterial

Kube X WC Electronic makes no compromise on quality. Thanks to the Extraglaze® Antibacterial finish the ceramic surface of the bowl is perfectly smooth and does not allow dirt or lime scale to deposit.

This revolutionary finish, with ISO 22196 certified 99.99% antibacterial action, ensures maximum hygiene and lasting shininess, pleasant to the touch, highly impervious to scratches, abrasion and external age. The extreme ease of cleaning also means a lower consumption of water and detergent, respecting the environment. The antibacterial action is also extended to the seat cover.

Swirlflush® Flushing system

Silent, hygienic, clean. The main characteristic of the revolutionary and exclusive Swirlflush® patented system is the absence of the traditional edge, the rim inside which, in a standard WC water circulates when flushing. The special shape of the Swirlflush® flushing system, the only one patented with a single hole, directs flush water evenly over ceramic surfaces, ensuring perfect cleansing, better draining, while reducing noise (only 64 db instead of 72 for a standard WC).

Rigour, lightness and versatility: these are the main features of the Nubes collection. A refined collection of cutting-edge products from both a stylistic and technological point of view, for demanding customers seeking a contemporary aesthetic. The distinguishing features of Nubes washbasins are their squareness and inherent versatility, provided by a dual fascia profile, allowing a wall-mounted, built-in or shelf-mounted installation. The edge of the basin, just eight centimetres of which are visible, provides Lightness and balance between form and space.

Pura

The Pura collection skilfully balances straight lines with soft shapes. This understated elegance exudes a touch of luxury that fits perfectly with GSI's design philosophy: simple but tasteful.

Pura offers a wide range of washbasins suitable for wall hung, countertop or under-mounted installation, all featuring a generous bowl size and overflow.

The Pura collection also features WCs with the revolutionary Swirlflush® technology and a sleek rimless design to maximise hygiene and improve flush performance.

KUBE X SHAKER UNIT
oak woodgrain

KUBE X SHAKER TALL WALL CABINET
oak woodgrain

Kube X

Kube X emerged out of a contemporary trend to develop rectangular forms with pared down lines and slender edges. The shorter projections make Kube X washbasins perfect for small spaces and minimalist looks. From the larger sizes down to the smallest, the collection offers square washbasins with many installation options: wall hung, on a countertop or with Kube X furniture. The collection also includes elegant round and rectangular vanity basins.

Kube X WCs have an angular shape to complement the sharp lines of the washbasins. WCs feature the revolutionary Swirlflush® technology and a sleek rimless design to maximise hygiene and improve flush performance.

Kube X Collection

Norm

With simple lines and sharp edges, Norm is the perfect design for a minimalistic style.

Offering a wide choice of basin sizes, from the space saving Norm 35 to the imposing proportions of Norm 125 double basin, this stunning collection can be customised to suit a wide variety of spaces and requirements, and all basins come with dedicated storage units.

The Norm collection also features WCs with the revolutionary Swirlflush® technology and a sleek rimless design to maximise hygiene and improve flush performance.

MODO WC & BIDET
gloss white

Modo

Modo is the premium economy collection consisting of sanitaryware, wall-mounted and freestanding, characterized by their curvy forms.

Products that are neutral yet make a great impact, and can find a home in different settings, allowing countless combinations with washbasins of different shapes and installation types. Modo is aimed at a customer target that needs to weigh up purchase choices in both quantitative and qualitative terms. The sanitaryware in this collection has all the benefits of GSI products: Antibacterial Extraglaze®, Swirlflush® system, Quick Release tool-free removal system and Soft Close system for toilet seats.

Classic

The Classic collection features traditional design at its best.

Inspired by the Neoclassical style, these timeless designs are able to recreate a traditional atmosphere in a contemporary environment.

A bespoke range of furniture has been especially designed to enhance the beauty of the sanitary ware.

COMMUNITY WC
gloss white

Community

Community is GSI Ceramic's proposal for public or collective bathroom environments. This is a line of sanitary ware that guarantees comfort in terms of design and usage possibilities.

Community also includes a line for differently abled people: the washbasin 70 answers especially to the need to provide service solutions and may be combined with the extended wall hung WC to allow easy access for the less abled.

The products are covered with Extraglaze Antibacterial glaze, a special finishing with silver and titanium ions that reduces bacteria counts by 99.99%.

GSI Drain

- WHITE
- ARDESIA

H2 shower trays are fitted with ad hoc GSI drains made from completely recycled PET, designed for optimal water outflow (42L/min) and offering antibacterial action.

Drain

- GSPILDSR2.09
£105
- GSPILDSR2.26
£105

- Fully recycled PET
- Durability and strength
- Ultra-thin design
- Antibacterial

All made to measure

Possibility of making custom cuts to adapt to special shapes and sizes.

The shower enclosure cannot be installed on the cut side with a bespoke shower tray.

Trays can be cut on site by the installer using porcelain tile cutting equipment. If the tray is to be cut by the factory please provide a detailed drawing and we can quote accordingly.

The minimum size obtainable is 60 cm per side, with a maximum of 200 cm. The cut side will be cold finished;

We recommend placing this side against or towards the wall. The drain might be off-center for a bespoke shower tray.

Bespoke trays cut to measure £120 per cut. (cuts will be a raw edge). Drawing required.

SHOWER TRAY INSTALLATION INSTRUCTION

1. Fit the waste fittings to the shower tray lining up with existing waste pipe position and check for leaks.
2. Position the shower tray on supporting points (max 200mm apart as per diagram) using flexible mortar adhesive supports and then fill the gaps alongside the tray edges with the same mortar adhesive.
3. We recommend you to use MAPEI products (ULTRALITE S2 QUICK or ELASTORAPID) to avoid excessive tightening the ceramic.
4. Position the shower tray paying attention to the thickness of the floor covering and verify the correct height. (N.B. initially level the surfaces where shower tray will be placed.) Ensure the shower tray is sitting perfectly level checking all angles with a spirit level.
5. Wait for the mortar to take root so the tray is stable and then proceed with the floor tile finishing. Ensure a 3 mm gap is left between the tile and the tray edges to avoid possible damage due to settlement.
6. Seal the gap with white, anti-mould silicon or elastic mortar.

Please note We will not be held liable in the absence of compliance with the points 2-3.

malta magra +
ultralite s2 o elastorapid / low wather mortar +
ultralite s2 o elastorapid

Possibility of cutting during installation using:

- PPE (Personal Protective Equipment)
- An angle grinder
- Diamond blade, abrasive sponge

Alternatively, a water jet cutter can also be used.

About our furniture

GSI furniture is manufactured in the UK following strict manufacturing standards and using high quality materials. Dedicated designs for each of the GSI ceramics ranges provide a comprehensive furniture offering, all in a range of on-trend finishes in wood grain and gloss. GSI furniture comes with a 5 year warranty. Our

18mm high specification cabinets are assembled using traditional glue and dowel construction, with no visible metal cam fixings. They all feature strong drawers with soft-close function and where indicated door units offer the option of left and right hand opening.

Terms in brief:

Ceramic products are designed and made in Italy and come with a 10 years warranty (Seats 2 years). The furniture range is specially designed for GSI and is manufactured in the UK. All products must be properly checked prior to installation. GSI will not accept any claim for installation if a defective product is installed.

We advise you not to confirm your installation date until full receipt of your order.

All goods must be examined before signing delivery notes. The contents of any package must be examined and checked on receipt. No claims can be entertained for shortages or damages after delivery.

We reserve the right to change details, prices or

specifications without prior notice.

Every effort has been made to ensure the accuracy of information in this brochure, but all dimensions are given for your convenience and should only be used as a guide.

Colour reproduction is as accurate as current printing methods allow. Please refer to colour samples available in the showroom before ordering.

All prices shown are RRP inclusive of VAT (non binding).

Full terms and conditions are available upon request.
